

# Drawing Challenge -1

## Directions:

In your sketchbook draw one of the challenges, you have 10 mins. When you are done upload to Artsonia under: [wk1\\_challenge1](#).

## Environment Challenge

Draw the environment  
described below.

A cold winter night that is  
being taken over by  
technology and features a pet  
crab.

or

## Character Challenge

Draw the character described  
below.

An old sick woman who is  
secretly a superhero hacking  
a computer.

# You Have 2 mins to Upload Your Work to Artsonia

1. Either Download the Artsonia App on your phone or Use the Web Browser and type in Artsonia.com
2. Click on ARTIST
3. Type in the Access Code **TPKF-ZSSZ**
4. Click on All Students
5. Enter Your Name
6. Add Art
7. Select the name of the assignment: **wk1\_challenge1**
8. Take a Picture
9. Crop the image if needed
10. Title the work
11. Type the Artist Statement
12. Submit to Teacher

Today is Freestyle Friday, which is a time for you to focus on an art need. Keep your phones. Complete the following tasks:

1. Check Grade in FOCUS and Submit Your Missing Assignments

**\*You need to type the date and name of the assignment, so that I can place the grade under the appropriate assignment. \***

next,

2. Free draw while experimenting with different subjects or materials
3. Or, Create this environment: “A rainbow city that is filled with traffic and features a giant lobster.”
4. Upload evidence of what you worked on during class to Artsonia under:

[Wk9\\_Freestyle Friday](#)

\*Remember I grade according to the following schedule:

Mondays- 1st Period

Tuesdays - 2nd Period

Wednesdays - 3rd Period

Thursdays - 4th Period

Fridays - 5th and 7th Period

Mondays- 1st Period

Tuesdays - 2nd Period

Wednesdays - 3rd Period

Thursdays - 4th Period

Fridays - 5th and 7th Period

## W.A.P.S Week 9 q3

### Wednesday 3-2-22

#### EQ (Essential Question):

How to create a street scene using 2 point perspective?

#### What will I learn today:

The student will learn six ways to create the illusion of space on a flat surface. The student will learn how to create the illusion of space using one point linear perspective and two point linear perspective.

#### How I will learn it? (Agenda)

- Watch Video on 2 point perspective
- Continue Exercise

#### How do I know I learned it?

If you have the following:

#### Rubric for today:

- 3 Met Expectation- Start windows and details for the buildings
- 2 Approaching Expectation-Complete less than 3
- 1 Below Expectation-No evidence

#### Reminders:

Pay Art Lab Fee of \$25 ASAP

Art Club Meeting 2-3 pm on Tuesdays

Find make-up work at

[katundra.com>classroom>2d1](http://katundra.com/classroom/2d1)>the date you need

Upload it at Artsonia

## How Two Point Perspective Works...

Now we'll create a simple street scene. We'll start by drawing our first basic form. We'll first establish the horizon line, place two vanishing points apart from one another, and draw the corner in between.

From each end of the corner, we'll draw two lines on each side back to each of the vanishing points

From each end of the corner, we'll draw two lines on each side back to each of the vanishing points

With two vertical lines, we'll establish the back end of our first form. Remember, these lines should be perfectly vertical and parallel to the corner

## How Two Point Perspective Works...

We'll add a couple of roads by drawing two lines back to each of the vanishing points, allowing both sets of lines to intersect in front of our first form

Following the same steps as we did with our first form, we'll add a second one. We're careful to make sure that our second form does not extend below our first.

A third form is added on the left side, behind our first. The steps remain the same, using the same two vanishing points for all of the forms

## How Two Point Perspective Works...

We can add an architectural element on one of the buildings by stacking additional forms on top. This process is just like drawing the forms for the buildings.

We'll add another architectural element to another building. We'll simply use both vanishing points to determine the angle of the lines that should be added.

We'll add a few rows of windows on our first building. On the right side of the corner, we'll use the right vanishing point to establish the angled lines. For each window edge, vertical lines are used. Be sure that these lines are vertical and are parallel to the corner
